

1st April 2020

Dear Parents

As you may be aware, yesterday Government crisis talks were held about the corona virus situation. Yesterday evening, the Prime Minister made an announcement that schools will remain closed until after the May break. For the ISE this means distance learning will continue until the 17th April. Teachers will be expected back at school on 6th May to regroup and to prepare. We expect all students to be back at school on the 7th May. This may change following the next Government announcement around the 21st April. We would also like to remind you that the 10th and 13th of April is the Easter break and naturally no lessons will be taking place on those dates.

We recognise that this situation remains challenging and asks much from our teams as well as our students and you as parents, however we are confident that we can continue offering structured learning opportunities and build on the positive experiences that are already in place.

Thank you for all the positive messages we have received and your continued support.

With kind regards

Daphne Dansen, Joan Roach, Marcella Watts
