

Dear parents,

Based on the Government press conference regarding the Corona pandemic on 21 April, it has become clear that secondary schools will remain closed until 1 June. The ISE Secondary Department will continue to provide remote education. In the meantime, the Secondary Department will prepare a plan for the proposed opening on 1 June which will include how to manage the 1.5 metre distance regulation. More details will be sent closer to the time.

Based on the Government statements, Primary Schools are required to open from 11 May. The Leadership Team of the ISE Primary Department are currently developing a plan for partial school education from 11 May. This plan will include how we will manage schedules, the curriculum, safety precautions, cleaning, parking, transportation to and from school, movement around the school, and the use of the cafeteria etc. More details about this plan will be shared as soon as possible.

We understand that these new measures will be a challenge for everyone and you will have many questions and concerns. Please allow us the time to develop this plan which we hope will address these questions and concerns.

We would like to take this opportunity to thank you for your support, flexibility and kind words that we have received during this challenging time.

We wish you a lot of strength and hope you are having a relaxing time during this break.

Marcella Watts, Joan Roach, Daphne Dansen
